Important Updates from the September 2024 Edition of DevWorld Tech Academy's Prospectus

We're excited to share three key updates:

Download the full Prospectus PDF for more details: <https://wbdwta.com/prospectus/>

1. NATIONAL CERTIFICATION BY CTVET GHANA

DevWorld Tech Academy students are now eligible to receive up to a Level 5 certification (Higher National Diploma) from the Ghana Commission for Technical and Vocational Education and Training (CTVET). This opens pathways for further studies—Bachelor's, Master's, or Doctorate—at any technical university in Ghana.

2. UPDATED CLASS TIMETABLES

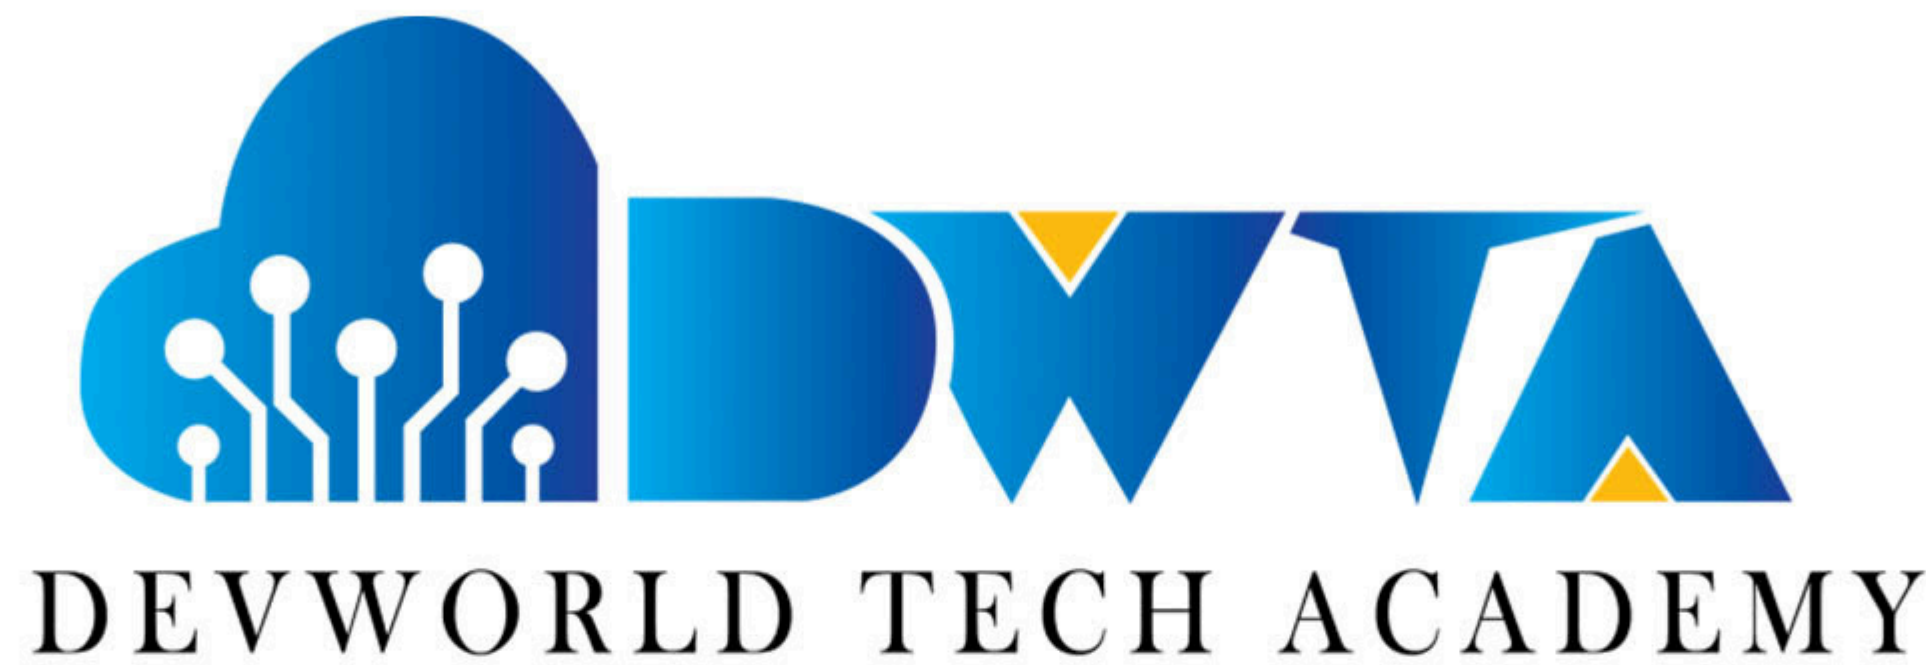

Our latest timetables and schedules are now available:

- **Regular** - Morning Students (Awareness Lane): Monday – Thursday, 9:00 AM – 12:00 PM
- **Regular** - Morning Students (Expert Lane): Monday – Thursday, 9:00 AM – 3:00 PM
- **Regular** - Afternoon Students (Awareness Lane): Monday – Thursday, 3:30 PM – 5:30 PM
- **Regular** - Afternoon Students (Expert Lane): Monday – Thursday, 3:30 PM – 8:00 PM
- **Slow-Paced** - Weekend Evening Students (Awareness & Expert Lane): Friday – Sunday, 6:00 PM – 8:00 PM

3. DWTA & HASMIA PARTNERSHIP – BENEFITS FOR YOU

We're thrilled to announce our partnership with Hasmia and other prestigious sponsors in Ghana. Through the Hasmia: Play & Win Program, you can discover exciting opportunities, giveaways, contests & competitions tailored to your skills and interests. Get involved today at hasmia.com/play.

For further details, check out the full prospectus at the link above!

ABOUT DWTA PROSPECTUS

At DevWorld Tech Academy, our prospectus is like a guide to everything we offer, designed to help you figure out if this is the right place for you. If you're interested in tech, whether it's software development, data science, cybersecurity, or AI, our prospectus gives you a clear picture of the courses you can take, what you'll learn, and how our programs can help shape your future.

For you, it's a way to see what you'll actually get out of our programs. We focus a lot on hands-on learning, so you're not just sitting in a classroom — you're working on real-world projects that prepare you for the tech industry. It also breaks down how to apply, what the tuition costs are, and whether there are scholarships you can go for. Plus, we have career services that can help you with internships or job placements, which is super helpful when you're trying to land your first job.

For us as a school, the prospectus helps us show you what makes DevWorld Tech Academy stand out. It's our way of sharing what we're about, the kind of learning environment we provide, and how we support students to succeed. We want you to feel confident that you're making a smart choice if you choose to study with us.

In the end, the prospectus is all about making sure you have the information you need to plan your future and take your next steps into tech.

Academic Study Lanes

AWARENESS LANE

Courses under this lane are for individuals who are aware that the future belongs to digital literates, and so are willing to upgrade themselves to gain some tech skills. From Zero (total novices) to Hero (beginners and intermediates).

The teaching schedules are easily favorable to Workers, High School or University Students, recent Graduates & Non-Workers. This lane is recommended for Novice, Beginners, and Intermediate learners.

EXPERT LANE

The Expert Lane's intensive study programs are ideal for individuals aspiring to build a robust career in the tech industry. Designed to take participants from complete beginners to advanced professionals, these programs equip learners with both comprehensive theoretical knowledge and practical skills, all in less time than traditional schools.

This lane is best suited for recent high school or university graduates, non-working individuals, and learners at any stage—novice, beginner, intermediate, or advanced.

W B D W T A . C O M

INTRODUCTION

Study programs and courses in DevWorld Tech Academy are grouped in study lanes. Class schedules, learning speed, depth of teaching, and tuition fees all depend on the study lane you choose.

QUALITY LECTURES

Our teaching faculty are highly trained to deliver skilled lectures to our students that are of an American standard when it comes to both theory and practical teaching. Our lecturers are willing to help our students cut a niche in the information technology field; helping them to become the best and the most wanted employees, freelancers, and entrepreneurs.

FUTURE FOCUSED

This is because at DevWorld Tech Academy (DWTA) we don't just give you skills, we give you a clear future. Our goal has always been to graduate students who are employed, started freelancing, or established their own company at most 3 months after graduating from our effective academic and career path programs.

Last Updated - September 2024

NATIONAL CERTIFICATIONS

Obtain a Ghana Government Approved National Certification

All five levels of qualifications that DWTA students can receive will be awarded by the Commission for Technical and Vocational Education and Training (CTVET) in Ghana.

DevWorld Tech Academy has always prided itself on being the premier destination for authentic professional training, and we've taken our commitment a step further.

Effective immediately, DWTA students who successfully complete their program curriculum and the minimum required course credit hours are eligible for a National Certification upon passing their final examinations.

The qualifications are designed to be certificated at eight levels: National Proficiency I, National Proficiency II, National Certificate I, National Certificate II, Higher National Diploma (HND), Bachelor of Technology (B. Tech) Master of Technology (M. Tech), and Doctor of Technology (D. Tech).

DevWorld Tech Academy is qualified to train students for the first five (5) out of Eight (8) qualifications, enabling our graduates to seamlessly pursue further studies at technical universities in Ghana.

The National TVET Qualifications Framework (NTVETQF) administered by the Commission for Technical and Vocational Education and Training (CTVET), provides clear entry and exit points for learners and successful graduates in Ghana: Commission for TVET (CTVET) under the transitional provision of the Education Regulatory Bodies Act (ERBA) 1023 of 2020.

OTHER QUALIFICATIONS & CERTIFICATIONS

DevWorld Tech Academy (DWTA) offers a variety of qualifications and certifications tailored to different learning paths: Academic Certificates provide specialized knowledge in a specific discipline and are typically shorter programs (a few months to a year). Examples include Digital Literacy and Computer Programming. Professional Certificates focus on enhancing career-specific skills and last from weeks to months. Academic Diplomas offer in-depth education over one to two years, often leading to further academic study. Professional Diplomas emphasize practical, hands-on training. Industry-Verified Certifications are awarded after completing advanced study and real-life projects, ensuring alignment with industry standards.

DWTA GUARANTEES

Our Commitment to Our Valued Students

During their orientation week, every new student receives a signed, legally binding guarantee letter from DevWorld Tech Academy, affirming our dedication to our three renowned DWTA guarantees.

30-DAY MONEY-BACK GUARANTEE

If our school doesn't meet your expectations or offer the academic program you anticipated, you can request a full refund within the first 30 days. We are confident in the quality of our services.

100% SATISFACTION GUARANTEE

We are committed to ensuring that you find DWTA's teaching and services highly satisfying. If something doesn't meet your expectations, let us know, and we'll begin

EARNING & JOB GUARANTEE

Complete a course lasting 12 months or longer at DWTA, and if you don't earn at least GHC 7,000 within 3 months of graduation as a freelancer, employee, or entrepreneur, we will refund you GHC 10,000.

MULTIPLE SCHOLARSHIP OPPORTUNITIES

DWTA TOP STAR - BLANK CHEQUE SCHOLARSHIP

Enroll to gain access to unlimited courses, which you can study simultaneously for an entire year (12 months). This scholarship is awarded to the top-performing student of each session.

ADMISSION & SCHOLARSHIP SEASONS

DWTA welcomes new students four times a year: September, January, April, and July. Additional scholarships may be awarded in August, December, March, and June.

Discover courses, class schedules, tuition fees & plans & certifications available here at DevWorld Tech Academy.

DWTA Certificates & Diplomas

Here's an overview of the different types of certificates, diplomas, qualifications & certifications offered at DevWorld Tech Academy – DWTA:

Academic Certificate

- **Purpose:** Focuses on providing specialised knowledge in a specific area of study within an academic discipline.
- **Duration:** Typically shorter than degree programs, often a few months to a year.
- **Issuers:** Universities, colleges, and educational institutions.

Academic Diploma

- **Purpose:** Provides comprehensive education in a specific field, often serving as a pathway to a higher degree.
- **Duration:** Usually takes one to two years to complete.
- **Issuers:** Universities, colleges, and educational institutions.

Professional Diploma

- **Purpose:** Focuses on practical skills and knowledge required for a specific profession, often including hands-on training.
- **Duration:** Can range from a few months to two years.
- **Issuers:** Vocational schools, community colleges, and professional training organizations.

Industry Verified

- **Purpose:** Indicates that a certificate or diploma has been reviewed and approved by industry experts or organisations, ensuring relevance and quality.
- **Issuers:** Typically, industry associations or bodies in collaboration with educational institutions.

At DevWorld Tech Academy, we value practical experience, and nothing compares to working as an intern in the real world alongside senior professionals while serving actual customers and solving their problems. Academic diploma students who complete this three-month unpaid internship will earn the DWTA Professional Diploma qualification.

Internship (unpaid)

Upon completing and passing their three-month industry attachment, professional diploma students become eligible for the DWTA industry-verified certification. This certification serves as a testament to industry stakeholders that we fully vouch for our students as qualified professionals.

Industry Attachment (paid)

Exploring Projects at DevWorld Tech Academy

At DevWorld Tech Academy (DWTA), our programs and qualifications are revolutionary, blending theory and practical knowledge to equip students with skills essential for solving real-world problems and advancing both their academic and professional careers.

Graduates from top IT institutions in Ghana, like DWTA, possess not only expertise but also resilience, making them stand out.

Project Types and Levels for Diploma Programs

DevWorld Tech Academy emphasises hands-on learning, ensuring that our students master theoretical concepts while gaining practical experience through real-world projects.

This approach ensures that graduates are proficient in applying their knowledge, a hallmark of the best IT schools in Accra.

For Diploma and Professional Diploma students, DWTA offers a unique opportunity:

- We sell the projects you complete (**when applicable**), with revenue shared between you, your team, and your project adviser.

This allows students to earn money while they study, turning academic projects into real income — a benefit offered by only the best computer schools in Ghana.

At DWTA, you'll work on a variety of projects, including Micro Projects, Mini Projects, Major Projects, Graduation Projects, and Path Projects. These types of projects are exclusive to DWTA and are detailed at the side of this page.

The best way to master a skill is through consistent practice, especially when that practice mirrors real-world scenarios.

Micro Projects

These are concept-based practice tasks designed to reinforce the skills you've learned. They are assigned regularly—every few days, weekly, or at the end of a lesson—whenever a new principle or concept has been taught.

Mini Projects

Mini Projects are smaller components of your Major or Graduation Project, typically due every two weeks or monthly. By completing Mini Projects, you'll have accomplished 60% to 80% of your Major or Graduation Project by the end of your program.

Major Projects

Diploma and Professional Diploma students are assigned to teams of 3–5 to work on a Major Project throughout their study period. The project is assessed at the end of the program, and DWTA may sell the project, sharing a portion of the proceeds with the students. Only Diploma and Professional Diploma students participate in these projects.

Graduation Projects

All students, regardless of qualification level, must complete a Graduation Project to demonstrate their understanding of the curriculum. Unlike Major Projects, this is an individual effort, mandatory for graduation. Participation is reserved for Diploma and Professional Diploma students.

Path Projects

Exclusive to Industry Verified students, Path Projects focus on real-world applications in specific career tracks: Freelancing, Employment, or Entrepreneurship. These students stay an additional session to complete projects in actual industry settings, rather than in the academy.

Shape Your **Career Path** While Studying at DWTA

At DevWorld Tech Academy, we offer more than just computer and business courses—we equip you with real-world experience through hands-on projects. We don't just teach skills; we pave the way for your future. DWTA empowers you to apply what you've learned and build the career you aspire to.

It's like attending two schools for the price of one. While mastering professional, technical skills, you'll also gain essential business and career-building expertise—practically applied through real projects.

Career Path Options

- **Employee Path**

If your goal is to secure a full-time position at your dream company after graduation, this path is for you. You're not looking to start your own business or work independently as a freelancer within the next 6 months after graduating.

- **Freelance Path**

If you envision working independently as a freelancer and managing your own clients, this option is ideal. You won't be seeking full-time employment or starting your own business at least 6 months after graduation.

- **Entrepreneur Path**

Ready to launch your own product or service company within 6 months of graduation? This path provides the business acumen and skills to make it happen. You won't be applying for jobs or pursuing freelance work, but heading straight into the business world and markets.

HASMIA

Contests & Competitions

EXCITING NEWS

DevWorld Tech Academy is proud to partner with Hasmia and other esteemed institutions in Ghana as official sponsors of select contests and competitions, particularly in areas that align with our vision and mission.

We invite you to explore the Hasmia: Play & Win Program to find opportunities that match your skills, talents, and interests so that you can participate and win.

DON'T MISS THE FUN

Open to Ghanaians of all ages, the Hasmia: Play & Win Program offers a wide array of contests, competitions, giveaways, and tournaments. You, along with your friends and family, can participate to win exciting prizes, including cash, devices, scholarships, coupons, gift cards, and free products and services for personal or business use.

Laptop Requirements

- Owning a laptop is optional for courses in the Computer Literacy & IT Fundamentals skill track (though having one is beneficial).
- For every other course in the various DWTA skill tracks, you must have a reliable laptop, as it is essential for learning.

Specifications	Programming, Cybersecurity, Data Related Courses	Design & Video Related Courses
Processor Type	i3 intel / AMD Ryzen 3 3200 or higher	i5 intel / AMD Ryzen 5 3450U or higher
RAM	8GB or higher	8GB or higher
Hard Disk Storage (HDD/SSD)	500GB or higher	500GB or higher
Processor Speed	2.1GHz or higher	2.1GHz or higher
Dedicated Graphics Card	2GB or higher (optional)	2GB or higher

What You Need Before Applying

- A strong desire to learn and a passion for tech-related fields such as design, computers, or coding.
- Self-discipline and motivation.
- Prior computer knowledge is helpful but not required.
- At least a junior high school (JHS) education, or the ability to pass a basic English and Math entrance exam.
- Complete the online application form by clicking the Apply Now button on the course page.
- Submit any academic certificates (JHS and above) or take the English and Math entrance exam.
- Pay a one-time enrollment fee of GHC 250 for your starter pack, which includes course materials and two DWTA T-shirts. This fee is non-refundable and non-transferable.

Class Size

- Classes range from 16 to 30 students. Seats are guaranteed for new students who pay their tuition fees before spaces fill up.

Prerequisite Courses & Placement Tests

- Some courses require prior knowledge. If you don't meet the qualifications, the admissions counselor may recommend prerequisite courses or placement tests before you can proceed with your chosen program.

DWTA Qualifications and Certifications

- Certificates and Diplomas are awarded for various courses, modules, and study programs, and can be completed online or in-person. Learn more about the five available qualifications on the qualifications page > <https://wbdwta.com/qualifications-certifications/>

Housing & Accommodation

- DevWorld Tech Academy does not offer on-campus housing, but provides guidance for students seeking nearby accommodation. For more information, visit our accommodation page > <https://wealthbankers.com/academy/accommodation/>
